La idea de este monovarietal nace con el entusiasmo característico de crear algo nuevo y con identidad propia.

Con un paso corto por barrica de 300 litros conseguimos un vino que rompe con el carácter vegetal del cabernet, apareciendo notas maduras, reflejo de nuestro clima semiárido.

Posee el equilibrio y la frescura que le ha aportado su corto paso por madera.

The idea behind Los Cucos de la Alberquilla was conceived with the aim of creating something entirely new and exciting, something capable of making its very own statement.

Bodegas Viña Elena has created a Cabernet Sauvignon wine designed to highlight the singular characteristics and outstanding qualities of this international grape variety; by first forging its personality in the vat and then merging this strong asset with the balance and freshness acquired from a short ageing period in oak.
